ZOMBIES VS LASGUNS
We do like to keep you excited, so with the complete Daemonifuge now available, it's time for a sneak peek at the next release in our Print on Demand line, Hive of the Dead.

This is the first of a new range of Warhammer 40,000 gamebooks, interactive novels where you take the role of the main character and decide where they go, what they do and whether they live or die. You fight the many enemies you meet in your adventure with a simple dice-based rules system where you roll to hit, wound and save, just like in Warhammer 40,000. In Hive of the Dead, you are an Imperial Guardian who wakes in a cell, surrounded by the walking dead. Your mission: to escape, preferably without itchingness and a craving for brains... We thought we'd give you a brief extract from this exciting new book, taken from a journey through the zombie-haunted depths of Hive Septus:

16

As you move through the centre section of the hallway, the faulty lume strip cuts out, and as you stand there in the sudden darkness, you can make out the sound of growling coming from somewhere. Suddenly, the light flicks back into life and the round window in the wall next to
you explode out in a shower of glass, ejecting something dark and fury into the hallway. As you back away, the dark shape lifts itself up off the floor and growls at you through its bared, sharp fangs, blood and saliva dripping from its jaws. An emaciated zombie dog stands before you, baw and ready to pounce.

To run down the corridor towards the next bend, turn to 185
To stand and fight, turn to 226

To find out if you can escape the attentions of this corrupted cadaverous canine, you'll have to return on the 5th of September to buy your copy.

If you can't wait that long for lasgun vs zombie action, downloading Aaron Dembski-Bowden's new eBook Cadet Born should satiate your thirst for post-apocalyptic action horror.
